

WEBMAP 2.1.4 Download/Registration Instructions

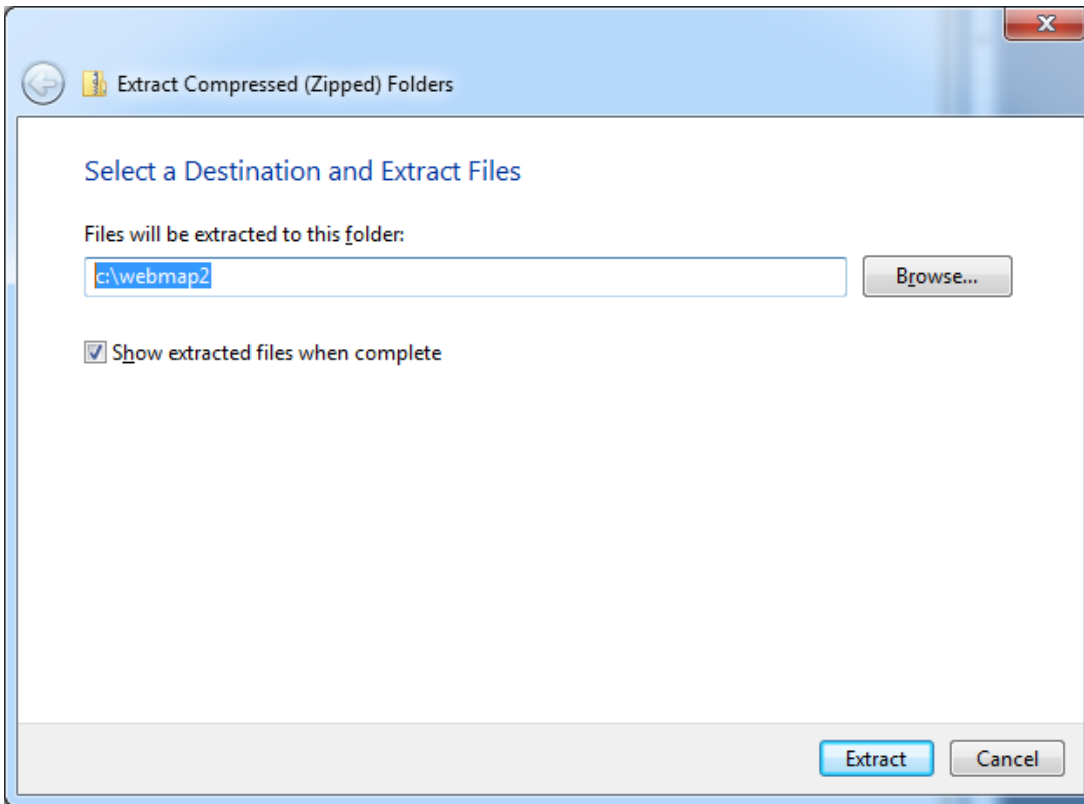

- 1) Once you buy WebMap, a pop-up will appear asking you to save Webmap
- 2) Save Webmap2.zip to your computer. For example, you may save it to your desktop.
- 3) Right-click on the “Webmap2.zip” file, click on “Open with” and select “Windows Explorer.”

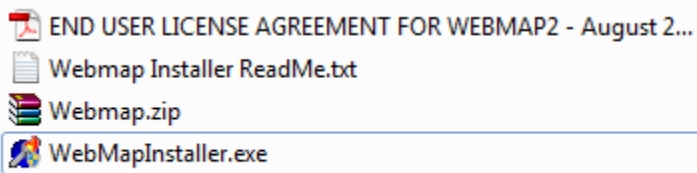

- 4) When the archive opens, double-click on “WebMapInstaller.exe” to extract the file set to a folder on your computer.

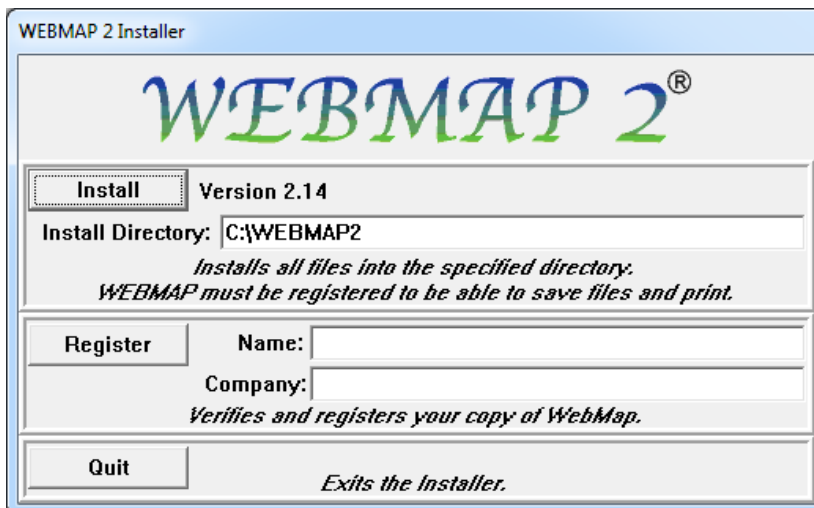

- 5) You will be prompted to select a folder to save the extracted files. Please enter, or copy and paste, the following folder location and then click on the “Extract” button: c:\webmap2

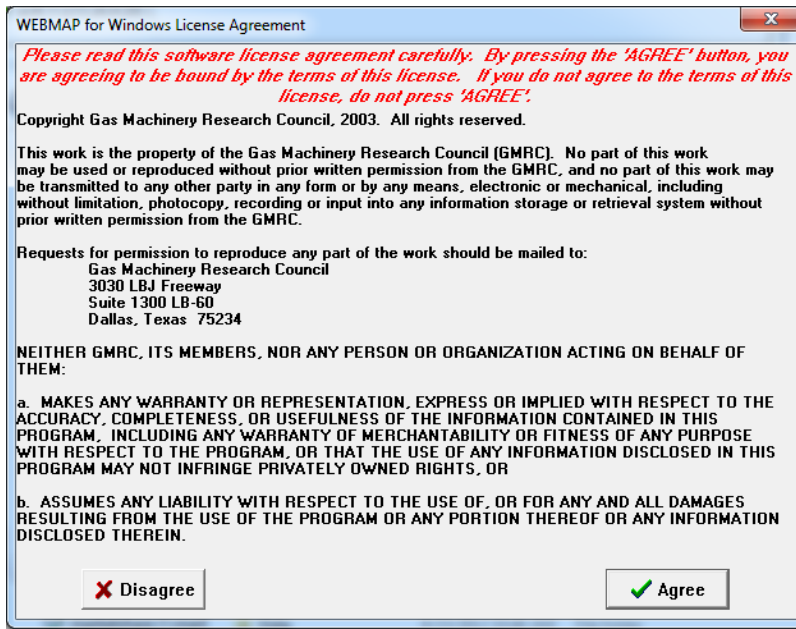

- 6) After the files are extracted, double-click on “WebMapInstaller.exe” to begin the installation.

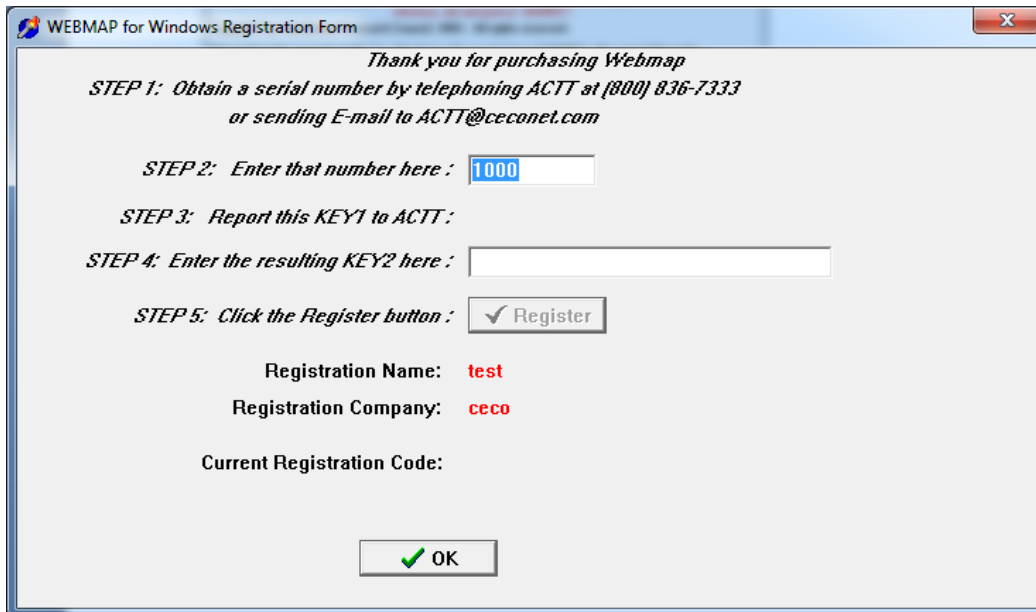

- 7) The first menu of the software opens. Please enter your name and your company name and then click on the “Register” button.

- 8) Please read over the license agreement and click on “agree”

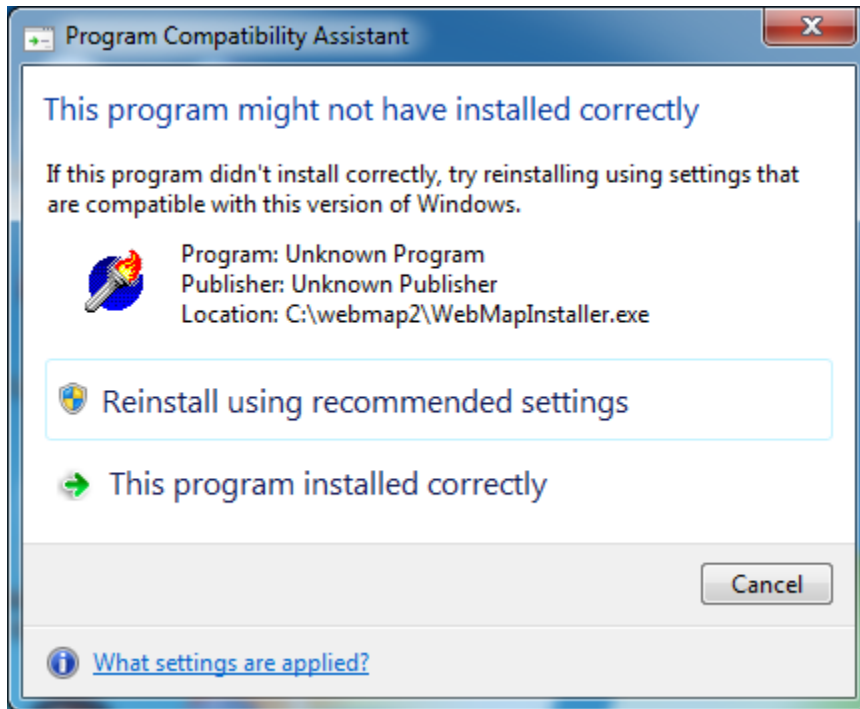

- 9) Obtain your serial number from CECO Training and Technical Services (CTTS): (713) 663-1805
- 10) The second menu opens. Please type in your serial number in place of the number “1000.”

- 11) KEY 1 will be generated on screen. Please report KEY 1 to CTTS.
- 12) Enter KEY 2 that CTTS rep provides in blank field labeled KEY 2.
- 13) Click on Register.
- 14) After the registration completes, please click on the “OK” button, and then the “Quit” button from the first menu.

- 15) You may get a pop up message that states that the program might not have installed correctly. Click on the option “This program installed correctly” or the “cancel” button.

- 16) Webmap is now installed on your system. You may now begin using the software.
- 17) The program can be opened from your Windows Start Menu. From the start menu, open “All Programs,” and “WEBMAP for Windows.” A link to the WEBMAP program will be available. You may also create a shortcut to the application using this link and place it on your desktop.
